8:30 – 9:00pm	Rest	Rest						

PST. PHILIP OKWENI
NACF Coordinator NA

NACF NORTH AMERICA COORDINATOR'S WELCOME MESSAGE

It is with great joy I welcome you all to this great and historic NACF national conference holding here in New York, in this great year of our Lord and savior Jesus Christ; 2022. I particularly congratulate every one of us who took out time from their busy schedules to attend this conference and I am persuaded in my spirit that this conference will be the beginning of a life changing experience for some of us and a stepping stone to new levels for others in Jesus name.

Much prayers and sacrifice has gone into the planning and preparation of this conference to make today a reality and I do strongly believe that the Lord has been waiting for us here even before we arrived to encounter us. Every session planned into this conference was a deliberate design by the leading and guidance of the Lord and it is all geared towards one purpose; that we all, will encounter God like never before and that you will never go back the same way you came and things can no longer be the same again with your and yours after this conference in Jesus name.

To some of us, this might be the first time of coming to New York, a great state and city popularly referred to as the financial house of the world. To this effect there could be many things that could be a distraction for us not to concentrate to

apprehend the ultimate purpose of this weekend, which is to give God the one moment like Jacob who was left alone, and God had a chance to meet with him.

The business of life may have made our spiritual space noisy so much so that God may not have had the quiet moment and opportunity to encounter us and break us, in order to change our name from Jacob to Israel. This may be the only opportunity, and we must guard it jealously for that moment of encounter, which could come by way of a word from the Lord in any of the sessions, a song, a dream, a vision or an ordinary conversation with a brother or a sister, could be the moment of turn around we have been waiting for. Therefore let's be sensitive in our spirit, because God is passing by this weekend, to meet everyone of us at the point of our needs. You will never be the same again in Jesus name.

I want to use this opportunity to thank the Local organizing committee for a great job well done in putting everything together to host this conference. Much sacrifice of time, labor, resources and great commitment went into making this conference possible.

May the Lord bless all your efforts and labors of love in Jesus name.

A WELCOME ADDRESS OF THE NIFES NATIONAL DIRECTOR TO THE NACF NORTH AMERICA BIENNIAL NATIONAL CONFERENCE TO THE NACF NORTH AMERICA BIENNIAL NATIONAL CONFERENCE

We are once convening together, both physically and virtually to retreat and be refreshed in the presence of God; to learn at His feet and to have fellowship with one another. Indeed; it gladdens my heart that we are able to converge together physically ones again following the COVID-19 incident and its attendant effect which has altered a lot in the world today.

“Living for christ in Perilous times” is not only a theme for this NACF North America Chapter’s biennial conference, but a timely call for every believer to understand the times we are and the expectation of God from us in this present age. In His admonition to Timothy; Paul, led by the Holy Spirit, warned:

But know this, that in the last days perilous times will come” (2 Tim 3:1). In other words, Timothy, and most likely, the church in his day, was to be conscious of the fact that the last days shall be characterized by terrible times. This consciousness was not to create fear in them, but to prepare them to be on the alert so that they will not be taken by surprise. It is also to help them to prepare to face whatever onslaught the enemy may unleash on them. Paul also warned Timothy on how to conduct himself in such times. Like Timothy and the Church in his day, this warning is for us believers today. We are living in the last days and surely, the perilous times are here with us. We therefore, need to arm ourselves with this realization so as not to be taken unawares. We also need to understand how we ought

Rex Onuh

to live in the face of the prevalent challenges that we are bound to face, conscious of that fact that God is with us and will not forsake us - Matthew 28:20. This Conference is to open our eyes and also to remind us of the challenges and opportunities that the perilous times come with, and what God expects of us as His people. That is why every session of this conference is important and I encourage that we make effort not to miss out of any. Where it is beyond our control to be present in all sessions, however, try and get the recordings and listen to them and I believe we will not regret it.

I would have loved to be physically present in this conference but COVID19 brought a lot of constraints that are still lingering thereby making it a lot more challenging to process and secure travel visas. However, though I am not there physically, my heart is in this conference and I will try as much as I can to be actively involved, at least virtually.

On this note I welcome you to this Year’s version of the biennial conference. I pray that it will be a time of refreshing to you and every other participant. May we enjoy the fullness of God’s presence throughout the conference. Remain blessed.

REX ONUH

A WELCOME ADDRESS TO THE 2022 NACF CONVENTION HOLDING IN STATEN ISLAND, NEW YORK - JULY 2022

It is with great pleasure and joy that we welcome you to the 2022 NACF Convention, here in Staten Island, New York. It was four years ago at our 2018 NACF Convention held at the La Quinta Hotel in Dallas Texas that New York was voted to host the 2020 Convention of the NACF. Just as we were getting ready to gather in New York, the Covid-19 became a global pandemic. All our plans got grounded. It is with a very heavy heart but thanksgiving to God that we remember that one of the key pillars and chairman of the NACF Board of Directors Uncle Hubert Nwokolo; who was with us at the Dallas Convention went to be with the Lord as a direct consequence of Covid-19. We pay glowing tribute to him and recommend that we observe a moment of silence. May his soul continue to rest in peace and rise in glory. Amen.

No one knew what the future would bring as far as Covid-19 was concerned. We were all reminded again that only God has the answer for our future existence. We give God all the glory that two years later, we are here live in Staten Island, New York for the NACF Convention. We give God all the

glory for sparing our lives and for granting us journey mercies to actualize our plans to have this gathering in New York.

We congratulate the NACF Board of Directors, the President, Pastor Philip Okweni and all our brethren for making New York 2022 a reality. We thank the local organizing committee for a job well done even as we look forward to their hospitality through the duration of the convention.

Please do not hesitate to contact us if you have any questions related to your stay here. We hope that you and your families will have a great time during this convention. On behalf of the brethren in New York and New Jersey, we say a resounding welcome to you.

VENERABLE MARTIN. OGUIKE, PH.D.

CONFERENCE SPEAKERS & Facilitators

Chinyeaka Obikaram (Apostle O.C) as fondly called by brethren and friends is the founding Pastor of Christian Fellowship World Outreach Church in Dallas Texas. An amplified Teacher and Preacher of the good news. An Accounting Graduate of the University of Cross River State now, University of Uyo.

Served in different positions in NIFES on Campus. Through the inspiration drawn from NIFES, NCCF and the grace and mercy of the Lord and the passion for souls, Apostle O.C has been brought to the limelight of global Evangelism and Outreach around the world.

Happily married to Pastor Edith. C Obikaram and blessed with three Children Favour, Bethel and Ebenezer.

**APOSTLE CHINYEAKA
O. C OBIKARAM**

I received Christ as my Lord and Savior on the 26th September 1986, and since then have grown from being a child of God to become a servant of God. I am an ordained Priest with the Church of Nigeria (Anglican Communion). Presently, I serve as the Associate Rector for Anglican Church of the Pentecost, Harrisburg PA. While in the United States, I serve under Anglican Diocese of The Trinity (ADOTT). In addition to my role as an Associate Rector, I am also providing leadership for our children, teenagers and youths ministry as the Chaplain within the Diocese. The Anglican Diocese of The Trinity is an arm of the Church of Nigeria in North America covering the US and Canada.

For 27 years after graduation, I served as a missionary among students, evangelizing and discipling those of them who come to faith in Christ through the ministry of the Nigerian Fellowship of Evangelical Students. I also served as the Bookshop Manager and pioneered the business arm known as NIFES Ventures. My last role in NIFES was providing leadership for our graduates' ministry referred to as Associates Department. This department is saddled with three main thrusts, namely: mobilizing our graduates as resources

persons for ministry among students, building partnership relationships that will sustain the funding of NIFES operations, and equipping our graduates through marketplace seminars and workshops for Christian impact in society.

I am a Christian devotional writer and a regular contributor to NIFES ANCHOR since its debut in 1999 till date. In fact, the NIFES Anchor was first produced under my leadership as the manager of NIFES Bookshop. For 21 years now, the NIFES anchor has remained the most used devotional among our students and graduates globally.

**REVEREND EBERE
NATHAN EZE, PHD**

Kingsley graduated as a 1995 Chemical Engineering graduate of Enugu State University of Science & technology. Upon graduation, he opened a paint manufacturing company in Owerri that he ran until relocating to the US in 2001. In the US, he started a new career working for Pfizer, Novartis, Bayer and now GeminiBio where he is currently the Vice President of Engineering at the company's Sacramento, California site. Kingsley is a follower of Jesus Christ and loves mentoring new believers and young professionals.

He is married to Caroline and are blessed with two boys Enoch (19) and Daniel (17).

**BRO. KINGSLEY
CHIGBU**

MARTIN OGUIKE, PHD

The Venerable Dr. Martin Oguike, was born in Owerri, Imo State to Harold and Cordelia Oguike who were pastoring Churches around Owerri as Anglican Catechist and School Teacher. Martin had a very humble beginning, being the 6th of 8 children. The Nigerian Civil War made matters worse as his early education was interrupted.

After the civil war his father began to nurse the idea that he should stop his education at the First School Leaving Certificate (Standard Six) level and go on to Auto Mechanic Apprenticeship. Martin rejected the idea because of his desire for higher education and his childish dislike for the prevailing mechanic outfit. This stalemate dragged on for two years during which time Martin engaged in child labor to save some money to pay for the Secondary School entrance exam and at least first year fees. At Emekuku High School, Owerri, Martin met a Scripture Union brother, named Paul who opened his eyes to the fact that regular attendance to Church and singing in the choir did not amount to being a Christian and being saved.

Martin met Jesus and surrendered his life to Him in 1973. His new life in Christ Jesus resulted in an ever-increasing faith through the ministry of the Scripture

Union (SU). Jesus took Martin over and provided Scholarship for the completion of Secondary School education and College. He attended Trinity College, Umuahia, Westhill College, Birmingham, UK, the University of Birmingham, UK and the University of Port-Harcourt where he earned his Doctor of Philosophy (PhD) degree in Church History.

Martin was ordained an Anglican pastor in 1983 and served the Church in Nigeria, United Kingdom and currently in New Jersey and New York. 32 years ago (1990), he got married to Sister Ngozi Opara formally of CU Uniben, who was then serving as Travelling Secretary of NIFES in Abuja. They are blessed with a daughter and three sons; Precious, Praise, Percy and Pleasant. God has been faithful to them at every stage.

Dr. & Dr. Mrs. Martin Oguike pastored Churches in Nigeria and lectured for many years at Trinity Theological College, Umuahia, Abia State before relocating to the US. Martin has a passion for Theological education. Martin & Ngozi are committed to Church Planting, encouraging the Youth and raising the next generation of Christians, so that they too will carry forward the gospel of Christ and be rooted in the WORD. As members of the NIFES Associates Fellowship, we should all share the passion of reaching our young ones with the Gospel. The baton of the Christian Faith is in our hands and must be passed on to the next generation.

I graduated from the university of Nigeria in 1980 with B.Sc in Physics, and was an active member of the Christian Union in Nsukka campus. Served NYSC in Zaria, Kaduna State and completed MSc (Applied Geophysics) from ABU Zaria: a physics lecturer at Abu Zaria and later FCE Zaria. Migrated to USA in 1996 where I completed PhD (Education) from Capella University. Currently I am a college Professor of Physics and Math at College of Southern Maryland, La Plata. MD.

I was exposed to the mission and activities of NIFES through CU as a student at UNN. Later served as an Associate Traveling Secretary (ATS) of NIFES in Zaria from 1992 to 1996. By the grace of God, I still remain an active supporter of NIFES prayerfully,

financially and otherwise since graduation from UNN. Also serving the Lord at every available opportunity in various capacities. Presently an assistant **Pastor at RCCG Christ Chapel in Temple Hills, Maryland.** To the glory of God, I am married to **Mrs. Christiana Ekwue, RN** for 36 years. Together the Lord blessed us with four lovely children.

PROF. ELEAZER UCHECHUKWU EKWUE

Pastor Chris Okechuku Nnoli is a three-capped professional: A Development Journalist, A Communications Consultant and an International Missionary & Minister. She resides in New Jersey with her husband and family.

Pastor Oliver Akano is the senior pastor of The Redeemed Christian Church of God All Nations Assembly, located in Olympia Fields Illinois. He also doubles as the Provincial Pastor of North America Region. In this capacity he supervises RCCG churches in the state of Illinois, Kentucky and Nebraska. He is involved in church planting in the Caribbeans and beyond. He is very passionate in church planting, revival and empowerment of Christians to take their place in the marketplace for the influence of the gospel of our Lord Jesus Christ for this end times. He has established two companies in the Healthcare

industry all over 13 counties in the state of Illinois. He is into real estate and palm tree plantations in Nigeria. Pastor Oliver Akano runs Hope Charities as nonprofit that fights against food insecurity, reaching out to the homeless and vulnerable young people in the state of Illinois. He is married to Pastor Eno Akano with two children and two adopted Children.

PASTOR OLIVER AKANO

NIGERIA FELLOWSHIP OF EVANGELICAL STUDENTS (NIFES HEADQUARTERS)

2022 MINISTRY UPDATES TO THE NACF NORTH AMERICA BIENNIAL NATIONAL CONFERENCE

The Words Of Grace

For God who said, "Out of darkness let light shine," is He who has shone in our hearts to give us the light of the knowledge of God's glory, which is radiant on the face of Christ. 2 Corinthians 4:6 (NTMS)

2022:01 WELCOME

Welcome to another Conference; may it be a life transforming Conference to all participants in Jesus name.

Kindly find below some ministry updates from the headquarters.

2022:02 NATIONAL SENIOR STAFF RETREAT

As part of continuous staff development and capacity building, an annual staff retreat held at the NIFES Conference Centre, Kwali, Abuja between 13th and 20th of March, 2022 and had fifty-seven (57) Senior Staff in attendance. The retreat featured training sessions on the use of a newly developed and deployed accounting software aimed at easing up the NIFES accounting procedures. It also featured leadership tracks drawn from a book written by Rick James titled: "Creating Space for Grace: God's Power in Organizational Change." It was a moment of personal and corporate reflection on our organizational operations as a ministry especially as staff team. The staff team left with a challenge to go back and yield themselves to be used of God in more dynamic ways to bring growth and development within their own spheres of operations, believing that this will produce ripple effects in the society at large.

2022:03 CAMPUS MINISTRY UPDATES

We return all the glory to God for how far he has led us since the beginning of this ministry year 2021/2022. The following are updates of our ministry operations in the first half of the ministry year:

LEADERSHIP TRAINING CONFERENCE (LTC):

The 2021/2022 LTC held between October 2021 and January 2022 in all the 40 zones across the country. The theme of the Conference was: A Purpose Driven Leader Titus 1:5a. The conference recorded a total of 5820 participants across the zones with 475 conversions and 436 rededications.

EASTER DISCIPLESHIP CONFERENCE (EDC)

In view of the forth coming National Missions Conference, the security issues, to reduce massive movements of our

students and to boost our virtual Ministry; this year's EDC held on Zoom and was live streamed on Facebook, and mixlr, while small group seminars ran on telegram. The Conference held on 15th-16th April, 2022 with the theme: "His Cross, My Gain". Over 4, 000 persons reached on Facebook and 50 on Mixlr. However, testimonies abound on the impact of the conference.

CAMPUS BASED TRAINING PROGRAMMES

All the campus-based training programmes like LTP, DT, First Year Retreat and Bible Training Weekend held as follows:

DISCIPLESHIP TRAINING (DT): In the first half of 2021/2022 ministry year a total of 100 campus groups held Discipleship Training (DT) with 4868 participants. New converts were 275 with 196 rededications.

LEADERSHIP TRAINING PROGRAMME (LTP): In the same vein, a total of 148 campus groups were trained in LTP with 16 conversions and 42 rededications from 1,805 students in attendance.

FIRST YEAR RETREAT: A total of 87 campus groups held First Year Retreat with 233 conversions and 321 rededications 4001 students were in attendance.

BIBLE TRAINING WEEKEND (BTW): A total of 31 campus groups held BTW in the course of the year. 1086 students were in attendance with 5 rededications.

DISCIPLESHIP CELL GROUP (DCG): At the end of the first half of the ministry year, we had 1643 cells in 195 campus groups

LIFE OUTREACHES (CAMPUS OUTREACHES)

This held in 31 Zones with 9,873 students involved, 855 Conversions, 1,749 Rededications and 445 Students were being followed up.

PRAYER SQUAD

This was observed in 26 Zones with average number of 2,114 Students participated.

NIFES PRAYER BULLETIN

3,000 copies of NIFES Prayer Bulletin were produced and distributed to all the 12 NIFES Area Offices in October 2021 and the Christian Ministries in Jos. The quantity reduced from 5,000 copies to 3,000 copies because the Ministry now include the Prayer Bulletin in the NIFES APP.

NATIONAL DELEGATES PRAYER CONFERENCE (NDPC) 2021

This held at the **NIFES Conference Center, Kwali, F. C. T.** on 18th - 21st November, 2021 with the theme: "In the name of Jesus Christ" (Acts 3: 6). A total of 1,184 registered participants as follows:

Students-----	1092
Associates-----	15
Volunteer Staff-----	18
Staff-----	59

Through the ministrations of the Holy Spirit during the conference, the following commitments were recorded:

- **Number of conversions -----1**
- **Number of rededication - -----44**
- **Number of Holy Spirit Baptism----- 20**
- **Number for sexual purity - -----18**
- **No to Examinations Malpractice ----14**
- **Committed to praying for NIFES ---90**
- **Number of Student intention to work with NIFES after graduation-----33**

NIFES ASSOCIATES COMMUNITY FELLOWSHIP (NACF)

We have a total of 64 NACF Centers across the country and 829 attended from all these centers.

FINAL YEAR BROTHERS FORUM (FYBF)

There are 241 FYBF groups and 93 campuses without FYBF. Plans are on ground to start off 41 new groups.

NIFES DAY IN CHURCHES

We had total of 32 NIFES day in Churches by Zones/Areas across the nation within the first half of the ministry year. A total of 443 persons participated including associates/ students and staff.

PARTNERING CHURCHES

To strengthen our support base in partnering with Churches and ministries, we had a total number of 180 Churches/Chapel and ministries partnering with NIFES across the country within the reporting period

ANCHOR DEVOTIONAL 2022 & PLANS FOR ANCHOR DEVOTIONAL 2023

Anchor 2022 was published and distributed during the National Delegates Prayer Conference November 2021. A total of 2500 copies were produced. A copy each was placed in the pack of all conference participants. The remaining few copies were sold and all the monies returned and accounted for. The theme for 2022 is: "Building on Firm Foundation." This edition is already blessing and impacting the lives of readers positively through the hard and majorly the soft copy which has a widespread of readership both within and outside the country. The production of the 2023 edition of our ANCHOR devotional is underway and currently contributors and writers are working to deliver manuscripts by this June to enable us begin editing and proofreading against production and sales/distribution by the WITNESS Conference in November 2022. The theme for Anchor 2023 is: God's Kingdom; God's Values. Please pray along.

NIFES MEDIA

The Media Unit of NIFES is in charge of managing our multimedia both at the Headquarters and at the Conference Centre. The Unit is also involved and fully in charge of managing the online presence of the Ministry on the web and social media platforms. www.nifes.org.ng

PROJECT EXECUTED RECENTLY

- **NIFES APP Upgrade** The newly upgraded app from December 2021 contains Bible App, Interactive platform, Anchor Devotional and Prayer Bulletin with feedback, Updates and NCCD Page. I implore us to download the App.
- **Creation of Video Resources Hub** A video resources subdomain is now live on our website where we can download resources that will help students' discipleship.
- **Introduction of Life Playlist** Life Playlist is the podcast page of NIFES on Anchor podcast. The platform provides the listener access to our past messages.

Others include:

- Creation of NACF Page on NIFES website.
- Creation of NIFES Conference Centre Page on NIFES Website.
- Creation of NIFES National Official Telegram Page.

2022:04 NIFES SCHOLARSHIP SCHEME (NSS)

By the help of God, we have been able to keep this scheme running and it is our prayers that we would continue to do better. This ministry year the headquarters gave the sum of #50, 000 (Fifty Thousand Naira) each to 40 students (one from each zone) totaling #2, 000, 000 (Two Million Naira). Hopefully next year we shall do more.

2022:05 STRATEGIC PLAN DOCUMENT

With the expiration of the last edition of our Strategic Plan document, plans are already on the way to produce the third edition of NIFES Strategic Plan document (2022-2026). The planning committee comprising of selected staff, students and associates have met thrice and hopefully by the beginning of the next ministry year (1st October 2022), after the Governing Council approval, the document would be fully ready for usage and implementation. Pray along that this Strategic Plan will position NIFES for greater impact and relevance on campus so as to fulfil her God's given purpose.

2022:06 NATIONAL MISSIONS CONFERENCE (NMC 2022)

The Conference is four months away, holding specifically on 16th-20th November 2022 at NIFES Conference Centre, Kwali, Abuja with the theme: Work While it is Day John 9:4. Speakers include Uncle Gbile Akanni, Pastor Paul Enenche, Pastor David Ogbueli, Evang. Mike Bamiloye and host of others. We are targeting 5,000 students to be in attendance and 200 associates. Please do pray for a successful conference.

July 2022

NACF 2024 NATIONAL CONFERENCE, WHICH CITY & STATE HOST NEXT?

YOUR DOCTOR CAN'T CURE YOUR CANCER BECAUSE

--- HE CAN'T PREVENT OR CURE HIS OWN!

DR. LORRAINE DAY (M.D)

Doctors develop cancer at the same rate as the general population. And doctors DIE of cancer at the same rate as the general population. Obviously that means that doctors don't know how to prevent or cure cancer because if they did, they would certainly prevent cancer from developing in themselves. And if they did develop cancer they would know how to cure it. But they don't!

So why would you go to a doctor for the treatment of your cancer when your doctor doesn't even know how to prevent or cure cancer in himself (or herself)?

Surveys show that 75% of doctors would NOT have chemotherapy if they developed cancer, yet they invariably prescribe it for their patients. Why do 75% of doctors in surveys respond that they would NOT have chemotherapy?

The answer includes the following: Doctors see the horrible suffering their patients, relatives, and friends go through while on chemotherapy.

Doctors ALL know that chemotherapy causes cancer, so it makes no sense to "treat" a cancer patient with a supposed "therapy" that causes cancer - a disease the patient already has!

Doctors watch their patients who are taking chemotherapy grow weaker and weaker, becoming thinner, more fragile, and sicker, losing the majority of their muscle mass while at the same time, suffering from severe nausea, vomiting, hair loss and numerous other life-threatening side effects of the poisonous drugs they are being given by their physician, the one who is supposed to help them. Yet, the physician's "treatment" results in an abominable "quality of life" and actually encourages the spread of the patient's cancer because the "treatment" suppresses the patient's immune system, the one system that the patient needs in order to get well.

Doctors watch their patients, relatives, and friends, DIE as a result of the poisonous chemotherapy. Some cancer patients actually die from the poisonous chemotherapy drugs and not from their cancer!

Doctors also know that radiation causes cancer. That's why doctors tell patients, "Don't get too many x-rays. X-rays cause cancer because they are radiation." How can a cancer patient be cured of cancer by being "treated" with a "therapy" that causes cancer?

Doctors know that both chemotherapy and radiation destroy the patient's immune system, the one system in our body

we need to get us well and keep us well. In fact, when these same chemotherapy drugs are given to patients who don't have cancer but have just received an organ transplant, these drugs are referred to, by physicians, as "immunosuppressive drugs" because they "suppress" the "immune system" the system in our body that is critical for recovery from disease.

Doctors apparently don't want cancer patients to know they are taking "immunosuppressive drugs" - drugs that suppress their immune system and encourage the cancer to grow and spread, nor do doctors want organ transplant patients to know that they are taking chemotherapy drugs for the rest of their life (so their body won't reject the organ), drugs that cause cancer.

In fact, when a patient has an organ transplant, his risk of developing cancer doubles. Furthermore, his risk of developing a specific type of cancer non-Hodgkin's lymphoma increases by seven times, according to the November 2, 2011, issue of the Journal of the American Medical Association.

That's why doctors tell cancer patients they are taking chemotherapy drugs but they tell transplant patients they are taking immuno-suppressive drugs even though the drugs given to both cancer patients and organ transplant patients are essentially the SAME drugs.

These drugs suppress the patient's immune system so the transplant patient won't reject his transplanted organ, but that same immune suppression markedly decreases the body's ability to fight disease, and therefore, the transplant

patient may develop cancer specifically as a result of taking the medication. And the cancer patient finds that his cancer will eventually grow and spread because of the suppression of his immune system caused by the chemotherapy!

So why, if chemotherapy is so harmful, do doctors prescribe it for their patients even when 75% of the doctors state they would not take chemotherapy themselves if they developed cancer?

In some states in the U.S., thanks to the Drug Companies and the "lock" on doctors by their doctors' "union" the

American Medical Association - it is illegal for a doctor to treat any cancer patient with any method other than poisonous chemotherapy, burning radiation, or mutilating surgery. If they do, they will lose their license to practice medicine.

Doctors don't know what else to do, because we physicians are never taught in our medical training how to get a patient truly well from cancer or any other disease for that matter. All we are taught to do is, 1) give harmful, poisonous drugs to cover up the symptoms of the disease and make the patient "feel" better drugs that have numerous side effects that cause additional diseases, but never address the underlying cause of the initial disease which also continues to progress, or 2) cut out the patient's organs or cut off their body parts.

But no disease has ever been caused by a person having "too many" organs or "too many" body parts. That's why cutting them off or out never cures the patient's problem. The cancer will just come back in the same place, or a different place in the body, or the person will develop a different life-threatening disease.

All diseases including ALL cancers do NOT "fall from the sky" nor do they "just happen." We give them to ourselves slowly, one day at a time, over a long period of time, by the way we live, think, act, eat, and handle stress. We give ourselves cancer and every other disease that we develop. None of us do it on purpose. We do it ignorantly, but we do it just the same.

The Good News is that if we have done it to ourselves by the way we have been living, thinking, acting, eating, and handling stress then we can REVERSE the disease by CHANGING the way we live, think, act, eat, and handle stress.

But we physicians are taught that cancer and all other diseases "just happen." And that's what we are taught to tell patients. But if that is true, then you are totally helpless! You are at the mercy of the doctor who has been taught to prescribe harmful Drugs or mutilating surgery neither of which will make you well, and both of which are terribly painful. The doctor will tell you there is no other option and he or she actually believes that, because that is what we all have been taught in our medical training.

WHY ARE DOCTORS NOT TAUGHT HOW TO GET PEOPLE WELL FROM THEIR DISEASES?

Because the Drug companies have enormous control over medical schools and the training doctors receive because drug companies provide a significant amount of the research funding for medical school research in large part to develop more drugs! It's the old "golden rule" - "He who has the gold rules!"

Also, drug companies have enormous control over the medical journals and the articles they publish (which establish standards of medical practice) because the medical journals contain more pages of high-priced four-color advertising by the drug companies than actual pages that contain the medical articles. If a medical journal starts publishing articles that contain information on how to get a patient well without prescribing drugs to the patient, the drug companies will "pull" their expensive advertisements, and that particular medical journal will go bankrupt and cease to exist. So, it's not hard to figure out why medical

journals refuse to publish articles on natural healing. But why do doctors who develop cancer themselves almost always agree to have chemotherapy, even though they say beforehand that they won't?

Doctors don't know what else to do, because they have never been taught in their training how to get anyone truly well from any disease, including cancer. As stated above, all we physicians are taught in our medical training is, 1) to give the patient harmful drugs drugs that cover up the symptoms but never cure the disease, and all these drugs have harmful side effects that often cause additional diseases. or, 2) cut out the patients organs or cut off his body parts, neither of which cures any disease because no disease has ever been caused by having "too many" body parts or "too many" organs.

GETTING YOUR CAR REPAIRED

Suppose you took your car to a mechanic, telling him that your transmission's first gear was slipping, there was a knocking sound in the engine, and the "check engine" warning light was "on." You left your car at the repair shop

expecting the mechanic to call you to give you an update on what he found and an estimate on the cost of the repair. But two hours later he called to tell you that your car was ready to be picked up. When you arrived at the shop, you asked the mechanic, "What did you do with the first gear that was slipping?"

He responded, "I took it out."

Aghast, you said, "But I need first gear."

But he nonchalantly responds, "It will work for awhile." "What about my 'check engine' warning light?"

The mechanic answers, "I cut the wires to the dashboard light. It won't bother you anymore."

Shocked at his answer, you continue, "And what about the knock in my engine?"

The mechanic hands you a pair of ear plugs and says, "Wear these. You won't hear it anymore."

As I state on my DVD, "Sorting Through the Maze of Alternative Medicine" my response to that mechanic would be:

"You're not a mechanic - - - you're a Doctor!"

Because that is how we physicians are taught to treat patients. We are never taught how to fix what is wrong to cure

the disease. We are only taught either to cover up the symptoms of the disease by giving harmful drugs, or we are

taught to cut out the patient's organs or cut off his or her body parts.

You would never tolerate that "standard of care" from an auto mechanic, even though you can buy another car. But you tolerate that "standard of care" from a physician, even though you have only ONE body to last the rest of your life

and you can't "buy" another one.

Your life and health are at stake! Yet you trust your doctor who knows less about repairing your body than your auto mechanic knows about repairing your car.

Cancer and ALL Other Diseases

And all this information on cancer applies to all other diseases as well. Doctors develop all the other diseases, including

Parkinson's and other neurological diseases, Heart disease and other cardiovascular diseases, autoimmune diseases, etc., at the same rate as the general population.

Here is an amazing illustration:

The U.S. National Institutes of Health (NIH) is arguably the world's foremost medical research center. It is comprised of

twenty Institutes under one central administrative control, including the National Cancer Institute, the National Heart,

Lung, and Blood Institute, the National Institute of Arthritis, Musculoskeletal and Skin Diseases, and many other

Institutes.

The NIH employs more than 18,000 people including thousands of medical researchers on their 70 acre campus in

Bethesda, Maryland, near Washington, D.C. In 2010, the budget of the NIH was \$31 Billion, all from the pockets of hardworking taxpayers.

Since the NIH was established over 100 years ago, at least \$1 TRILLION has been spent by tens of thousands of scientific

researchers to find a cure for cancer, and other diseases.

But the sad truth is that NO cure for ANY disease has ever been found by NIH-funded research, or by any other conventional medical scientific research organization either!

Dr. Bernadine Healy First Woman Director of the NIH In 1991, President George H.W. Bush named Bernadine P. Healy, M.D. as the first woman Director of the NIH, probably

the most prestigious medical research organization in the world, the place where huge amounts of research funding have been spent to supposedly find cures for diseases.

If any physician would be privy to the most advanced techniques for curing cancer or other diseases, it would be the

Director of the NIH, this mega-complex of extremely well-funded supposed research excellence, including the most

"cutting-edge" cancer research!

But on August 6, 2011, Dr. Bernadine Healy, former head of the National Institutes of Health, including the National Cancer Institute died of Cancer.

This shows the crushing failure of all attempts of Organized Medicine to find a cure for cancer or any other disease.

Why have they failed so miserably? Because decade after decade they have continued to look in all the wrong places.

They continue to develop more drugs, all of which are harmful and none of which cure disease. They continue doing

genetic research as though cancer and other diseases can be cured by manipulating one's DNA.

But they refuse to study lifestyle factors. They refuse to accept the fact that we give life-threatening diseases to ourselves by the way we live, think, act, eat, and handle stress. Of course, one main reason they refuse to look at lifestyle factors is that would make all their high-rise glass and metal buildings, their thousands of medical

researchers, their Billions of dollars of research funding, and their false erudition, completely irrelevant.

They would have to admit that diseases are caused by one's lifestyle and therefore can be reversed by changes in one's lifestyle.

And they would be out of a job!

Someone has wisely said that the definition of insanity is doing the same thing over and over again, but expecting a different result. That's precisely what Organized Medicine, including the NIH, has been doing for the last hundred years.

Going down the same research “road” that has failed for decades, yet expecting to have success.

Could it become any clearer that doctors do not know how to cure cancer?

So again, if doctors knew how to prevent or cure those diseases, they would not develop them and die from them themselves, which they do!

So what should you do instead of trusting your doctor who does not know how to cure your disease (or his or her own disease) because he or she has never been taught?

As mentioned above, we give ourselves disease slowly, one day at a time, over a long period of time, by the way we live, think, act, eat, and handle stress. It took you years to give yourself this disease, just as it took years for me to give myself breast cancer.

It doesn't matter if the disease is rare or common, whether it is early or advanced, or whether it is in a child or an adult, ALL diseases are caused by the same factors and ALL diseases can be Reversed by Changing those factors.

All a person has to do to Reverse his disease is to Change the way he (or she) is living, thinking, acting, eating, and handling stress. One must learn how to Stop doing the things that have caused his disease, and Start doing the things

that will Rebuild his immune system, so his immune system can get him well and keep him well as God designed it to do.

But in order to get well, one must be willing to obtain the proper materials, study them diligently and repeatedly, and one must have the determination, commitment, tenacity, and self control to change his habits the very habits that have made him sick in the first place.

And just for the record, your doctor knows nothing about this information even though it is all found in the medical literature. In my workbook, “Getting Started on Getting Well,” which is part of the Starter Package, there are 17

pages of abstracts from the finest medical journals in the U.S. and the world, showing why this Ten Step Natural Health Plan actually works.

For 15 years, I was on the faculty of one of the three most prestigious medical schools in the country, the University of California, San Francisco School of Medicine, as an orthopedic trauma surgeon, taking care of patients and training

medical students, interns and residents. Yet I, like every other doctor, did not know how to cure disease any disease. Fortunately, I did know how to surgically repair massive injuries of victims who had been shot or stabbed multiple times, or had fallen from great heights, or who had been severely injured in car crashes or other types of accidents. In situations like that, a surgeon is very necessary.

But trauma is very different from “disease.” Indeed, trauma accidents, DO “just happen.” But diseases don't. Diseases are the result of many years of abusing our body by the way we live, think, act, eat, and handle stress.

But again, I, like ALL other physicians, did NOT know how to prevent or cure cancer or any other disease because all we are taught is to give drugs to cover up the symptoms, or to take out a patient's organs or cut off his body parts, neither of which cure cancer or any other disease.

I developed cancer because I was never taught how to Prevent or Cure cancer or any other disease. And neither has

any other doctor been taught how to do that.

Everything I learned to Reverse my cancer is well-documented in the medical literature, but I had to learn it on my own

when I was diagnosed with cancer, because doctors are never taught this information during our medical training. In fact, we are vigorously taught that these natural methods do not work a total fabrication that virtually all doctors embrace.

But I, and thousands of others, are living proof that you CAN get well from ALL diseases without drugs, including without chemotherapy drugs, without radiation, and without mutilating surgery.

All the information necessary to Get Started on the Health Plan is in the Starter Package.

Here is an amazing illustration:
